<p>학회명</p>	<p>ICAIC 2023</p>
<p>학회기간 및 학회장소</p>	<p>2023.02.20. ~ 23./Bali, Indonaesia&Virtual Conference</p>
<p>학회정보</p>	 <p>CALL FOR PAPERS</p> <p>We have witnessed fast developments of various artificial intelligence (AI) technologies, and many forms of information and communication systems with AI are becoming core parts of our daily lives. With the proliferation of future information, communication, and electronic devices, there is a fast growing interest in information and communication technology (ICT) with AI. The conference promotes their transfer into practical applications, for developing intelligent ICT systems and pursuing artificial intelligence applications for contents, platforms, networks and devices. The Fifth International Conference on AI in information and communication (ICAIC 2023) aims at addressing advances in research on ICT, covering topics ranging from ICT technology issues to emerging AI applications for ICTs. ICAIC 2023 solicits original, unpublished contributions in all aspects of AI in information and communication. Submitted articles must not be concurrently considered elsewhere for publication. We also encourage authors to submit short papers on the early stages of research or development in progress, which present important new challenges. Position papers on new ideas and industry papers are also welcome. The conference will take place in Bali, Indonesia & Virtual Conference, which is organized by KICS (The Korean Institute of Communications and Information Science) Artificial Intelligence Society with the technical co-sponsorship of IEEE Communications Society and IECE-CS. Accepted and presented papers will be published in the ICAIC Conference Proceedings with an assigned ISBN number and submitted to IEEE Xplore, Scopus, and EI Compendex. Also extended versions of selected papers will be published in the following international journals as a special issue for the ICAIC 2023.</p> <p>The topics include, but are not limited to</p> <ul style="list-style-type: none"> Information and Communications Technology AI Applications for Networking and IoT AI Applications for Mobile Communication AI for Data Analysis, Big Data and Cloud AI for eHealth AI for Image Processing and Multimedia AI for Control and Decision Systems AI for Energy, Computer Systems and Semiconductor Device AI for Neuroscience and Neuroengineering AI Foundation <p>Submission Guidelines</p> <p>All papers must be submitted electronically, in PDF format, and uploaded on EDAS. The direct link for paper submission is https://edas.info/N30162. The submissions should be formatted with single-spaced, double-column pages using at least 10 pt size fonts on A4 or letter pages in IEEE style format. The maximum number of pages is 6 for full papers. Please make sure that full papers must be at minimum 3 pages in length. Detailed formatting and submission instructions will be available on the conference web site (http://www.icaic.org).</p> <p>Call for Workshop Proposals</p> <p>Proposals are invited for half- or full-day workshops in communication and networking topics. Please contact chairs, Sungrae Cho and Howon Kim at srcho@cau.ac.kr and hwoonkim@pusan.ac.kr</p> <p>Selected Journal Publication</p> <p>Accepted and presented papers will be published in the ICAIC 2023 Conference Proceedings. 학회정보	 <p>APMS 2022 Gyeongju, Korea IFIP International Conference Smart Manufacturing and Logistics Systems: Turning Ideas into Action "Digital, Autonomous, Sustainable, and Interoperable Systems" September 25, 2022 - September 29, 2022 Online/Offline Hybrid</p> <p>OBJECTIVES AND SCOPE OF APMS 2022</p> <p>APMS 2022 aims to bridge the gap between academia and industry in the development of next-generation manufacturing and logistics systems. The conference features special sessions to emphasize with the real challenges of today's industry and accordingly to exchange valuable knowledge and discuss about new ideas, while emphasizing how to turn technological advances into business solutions. The conference attracts internationally renowned keynote speakers from academia and industry and the active participation of manufacturers and their suppliers as well as service providers. Therefore, practitioners from industry, researchers and lecturers are cordially encouraged to register and participate in this timely conference. The presented papers will be published in the Springer Series ADIT and indexed on SCOPUS and Web of Science.</p> <p>The APMS conference is sponsored by the International Federation of Information Processing (IFIP), and it is organized by the IFIP Working Group 13.7 on Advances in Production Management Systems established in 1978. The conference is also supported by two leading journals: the International Journal of Production Research (IJPR) and Production Planning & Control (PPC).</p> <p>PROGRAM</p> <p>The program includes presentations and discussions of peer reviewed papers, in addition to insightful keynote speeches. The program also includes several sessions that help raise visibility on "hot" topics in a particular sector or application area as well as a Doctoral Workshop that provides young researchers the opportunity to present research proposals. The Doctoral Workshop will be on September 25th, 2022. Regular and special sessions and keynote speeches will be from September 26th to September 28th. Industry tours will be on September 29th.</p>
